

DEPARTMENT OF WATER SUPPLY AND SANITATION DEPARTMENT, PUNJAB
(PUNJAB RURAL WATER & SANITATION SECTOR IMPROVEMENT PROJECT)

PROJECT ID.: P150520, **REQUEST FOR EXPRESSION OF INTEREST**
(CONSULTING SERVICES--- FIRMS SELECTIONS)

Assignment: Hiring of a Consultancy Firm to develop a Strategy for Service Delivery Improvements though infrastructure improvements and institutional arrangements in Kandi (hilly) Area of Punjab

1. IBRD (The World Bank) has approved a credit to Punjab Government for the implementation of Punjab Rural Water and Sanitation Sector Improvement Project (PRWSSIP). This project is under implementation since 2015. Now the Government of Punjab (GoP) intends to apply part of the available proceeds of this loan for **Hiring of a Consultancy Firm to develop a Strategy for Service Delivery Improvements though infrastructure improvements and institutional arrangements in Kandi (hilly) Area of Punjab.**
2. **Objective:** To undertake a performance study of selected rural water supply schemes to make appropriate recommendations for improvement of infrastructure and service delivery arrangements for the entire Kandi region.
3. The Department of Water Supply and Sanitation now invites eligible Consultancy Firms to indicate their interest in providing these services. Interested Firms must provide information indicating that they are qualified to perform the services (brochures, description of similar assignments, experience in similar conditions and so forth). The Eligibility criteria is as under:

Eligibility criteria:

- i) Minimum Average Annual financial Turnover of Rs. 60 Lakhs in any 3 years in last 5 financial years (FY2017-18 to 2021-22), duly audited by Chartered Accountant (CA certified turn over for the FY-2021-22 shall be accepted).
 - ii) Consultants should have experience of conducting studies regarding design, construction, operation and maintenance of at least one water supply scheme based on surface water with collection, treatment, transmission and distribution of treated water within last 5 years from the last date of submission of EoI.
4. The Consultant will be selected in accordance with Selection Based on **Consultant's Qualifications Selection (CQS)** procedure set out in the World Bank Procurement Guidelines (2011, updated 2014). The Bidders have to submit the Full Technical Proposal meeting the Eligibility Criteria as well as Selection criteria **as per the TOR**. Only the Proposal which fulfil eligibility criteria shall be evaluated for Selection Criteria as per TOR. The most qualified firm on the basis of the evaluation shall be asked to submit a combined Technical and Financial Proposal and if such proposal is responsive and acceptable, then the firm will be invited to negotiate the contract. Kindly note that no Financial proposal shall be submitted at this stage. A firm submitting the financial proposal at this stage shall be disqualified and their proposal shall be rejected without evaluation.
 5. Interested Consultants may refer detailed ToR placed at the Departmental Website: **www.dwss.punjab.gov.in**. Request for Expressions of Interest must be delivered in a written form to the address below (in person/courier, and by e-mail) on or before **16-02-2023** upto 3:00PM
 6. The Consultancy duration shall be for 3 months from the date of award of the consultancy agreement.

Note: Any corrigendum(s) to the Request for Expression of Interest shall be published on the Departmental website only.

Terms of Reference

Punjab Rural Water Supply and Sanitation Sector Improvement Project

Terms of Reference for Hiring of a Consultancy Firm to develop a Strategy for Service Delivery Improvements through infrastructure improvements and institutional arrangements in Kandi (hilly) Area of Punjab

1. Introduction

The Punjab Rural Water Supply and Sanitation Sector Improvement Project (PRWSSIP) is being implemented (approved in 2015) by Department of Water Supply and Sanitation (DWSS), Government of Punjab with the financial support of the World Bank. The Rural Water Supply in Punjab are single or multi village schemes and predominantly are tube well (ground water) based. The southern districts use water from canal and the Kandi (moderate hilly) areas along the border with Himachal Pradesh and Haryana in the north and eastern districts of Pathankot, Hoshiarpur, SBS Nagar, Ropar and SAS Nagar districts use ground water and also water from local streams. For last two decades, over exploitation of ground water in the region resulted in deterioration of water quality, depletion of yield and steep fall in the ground water levels requiring frequent replacement of tube wells. Due to hard and rocky strata along with presence of boulders in this region, drilling of tubewell sand supplying water to habitations in higher altitudes is requiring higher and higher capital investments and more recurring expenditure on Operations and Maintenance (O&M). In summary, there is a need to improve water supply services in Kandi belt using cost efficient and sustainable practices. Hence, DWSS aims to take a comprehensive and strategic approach to develop and deliver services at the desired standards in these northern border hilly areas and to sustain these services through better management practices including cost recovery.

2. Objective:

The objective of the assignment is to hire a consultancy firm to undertake a performance study of selected rural water supply schemes to make appropriate recommendations for improvement of infrastructure and service delivery arrangements for the entire Kandi region.

3. Scope of Work:

The consultants are expected to take cover entire Kandi area (Refer Annex A) by proposing suitable infrastructure development and institutional models to deliver services but detailed review is to be carried out in 25 Water Supply Schemes (Refer Annex B) in Districts Pathankot, Hoshiarpur, SBS Nagar, Ropar and SAS Nagar in Kandi Area of Punjab. The work would include but not limited to:

Systems Assessment:

Upgrading Existing Schemes: Undertake a condition and performance assessment of existing water supply schemes (ground/ surface water based) including condition of treatment systems; distribution network availability and management; and quality of pumping machinery; system planning (efficiency) etc. Long term sustainability of existing source should be assessed for its ability to supply water at minimum service level of 70 lpcd but can go up to 110 lpcd to deliver 10 hrs average supply everyday throughout the year covering all (100% households). Propose options to upgrade all such schemes through optimum utilization existing assets and to bridge the infrastructure gap. Provide feasibility level reports for all such schemes in the entire Kandi belt with timelines, costs and specifications for key water assets for procurement.

Bulk infrastructure to be developed for Sustainable Supply: Recommend options for improving for various models of existing water supply schemes with better operational models. If the present service delivery parameters / service level cannot be improved to deliver upto 110 lpcd for supplying atleast for 10 hrs everyday throughout the year because of source capacity constraints, or source sustainability etc., propose suitable solutions to shift to more suitable sustainable sources (that include surface water sources, reservoirs, streams etc.) or augmenting sources. Propose necessary improvements in other systems such as treatment, pumping and pipeline infrastructure. Source identification can be done by conducting desk-based macro level data assessment for sustainable water resources (necessary (open) data to be collected by the consultants; DWSS to provide support) in the region which can be cost effectively developed. The proposal can include single schemes, or multi-village schemes for a few habitations or to coverage large number of villages (similar to Moga scheme). Provide feasibility level reports for all such schemes with timelines for development and costs; and specifications for key water assets to be procured.

Service Delivery Model:

Service delivery model: Examine the operational and management staff deployed for these Kandi schemes and their skills and knowledge to deliver services effectively. The staff assessments to cover Junior Engineer level (and the section offices), operators of treatment and pumping systems and those managing the distribution systems. Assess deficiencies in operations and draw up a plan to improve their skills and also propose service delivery models to deliver water for more than 10 hours to 24/7 in these areas with due focus on reduced NRW (non-revenue water) and energy efficiency. The proposal should also include SCADA for schemes under each of the division for better management and to improve efficiency of operations. The system also should propose accountability systems. The consultants should also propose suitable construction and operational contracts for expected service delivery results.

Financial Models: Review current tariff and collection methodologies and assess likely cost of operations for each of the schemes and develop a tariff that can recover all the operations costs (both at flat tariff and volumetric tariff). Recommend a best model that can be used in these Kandi areas. Propose any subsidy if the costs are not affordable (power cost is outside tariff as it is fully subsidized by the government at this time).

4. Methodology:

The Firm must undertake detailed study of 25 rural water supply schemes in the Kandi area of state, shortlisted from the full list of rural water supply schemes in the Kandi area. These 25 schemes (Annexure – B) are a selection of 12 single village water supply schemes and 13 multi village water supply schemes covering all the districts. Detailed technical performance assessment of the entire scheme covering source, water works infrastructure (pumping arrangements, OHT/UGSR etc.) and distribution systems (fixing of meters, tap son connections, float valves for connections to overhead tanks, leak repairs, additional valves etc.), O&M practices, supply arrangements, capacity of operators etc. should be carried out as above to assess bottlenecks and improvements required to improve performance of the scheme, ensure source sustainability and enhance service delivery (supply hours, LPCD etc.). The team will also visit many other schemes for quick assessment to help the team to come up with these proposals. It is expected that detailed assessment of 25 schemes will provide necessary understanding and visits will help them to make projections for the entire Kandi area. The team is expected to share the findings and recommendations with all stakeholders through two workshops during the course of this assignment.

The detailed assessment of 25 schemes to focus on the issues and to analyze:

- Source Adequacy: Issue of regular supply (availability of raw water supply) vis-à-vis water bearing strata and requisite volume of water in aquifer.
- Assessment/ understanding of water quality and quantity issues; and water consumption pattern in hilly areas. This includes right supply level – between 70-110 lpcd or more. This should be discussed with DWSS in the initial phase and agree. All the improvement suggested will use the same per capita supply level for 30-year projected period population as per CPHEEO norms.
- Condition assessment of water treatment plant infrastructure – key observations on management of water supply schemes and reasons for neglect and poor asset condition.
- Assessment of ongoing operational and management of schemes – comprehensive examination of existing schemes to bring out short comings in managing electro-mechanical equipment, filters, condition of media and valves, storage tanks (OHT/UGSR), status of disinfection system.
- Elicit understanding/ knowledge of methodology of various drilling technologies in hard/ rocky strata of Kandi area in DWSS engineers and operating staff.
- Evaluation of water production with water quality analysis, review of hours of operations and supply hours and compare demand and supply requirements. Reasons for non-equitable water supply to tail end habitations and not producing water as per design capacity of the scheme.
- Assess inefficiencies in the production and distribution of water such as zoning- review of distribution operations and provide comments whether there is a need for zoning systems being used.
- Short term measures – major repairs and minor augmentation: Suggest steps to improve systems through short term measures such as investments and possible improvement in services by replacement of raising main, pump and motors (MHC/ Submersible etc.) and
- Training of operators and field officers to improve operations. Analysis and Suggestions to improvements and ensure minimum 70 -110 lpcd in supply levels in these schemes (or where possible).
- Suggest for improvement in service delivery to ensure long term sustainability of existing W/S Scheme with source will assessed w.r.t. desired service delivery parameters i.e. service level of 70-110 lpcd for 10 hrs average supply every day throughout the year for 100% households.

- Suggest improvement of operations and technical specifications to make these systems robust and simpler. Submit draft standard operating procedures to DWSS for consideration.
- Preparation of simple operation and maintenance manual and suggest improvement in operational arrangements and options for long term O&M contracts.
- Many Water Supply Schemes in Kandi Area are not financially sustainable due to requirement of heavy pumping machinery – assess financial status of these schemes and suggest measures to improve financial sustainability.

5. Strategic Vision to Improve Water Supply in Kandi Area:

The consultants will propose an overall plan for the development which resemble a master plan to be implemented in one or two phases.

1. Short Term Implementation plan – this include identifying the villages that can reach desired per capital supply with low level investments. An implementation plan with expected costs and implementation timelines.
2. Long Term Implementation Plan: This is where major investments are needed both to shift to safe sources and to augment the schemes to upgrade its capacity to meet the service standards. This may include plan to connect several villages under a bulk water scheme and developing their water assets. This may also require further prioritization depending on its augmentation. Also propose measures to reduce operational expenditure and improvement management practices.

6. Support provided by DWSS:

DWSS shall provide all necessary designs, drawings including as-built-drawings as required by the Firm for the schemes selected for the assignment for this purpose. DWSS will arrange access of the firm to the water supply facilities in co-ordination with the GPWSCs/ GPs. DWSS will share the following data available with them.

- Baseline functionality data collected by DWSS of 826 existing Rural Water Supply Schemes in Kandi Area supplying water to 1303 habitations in the Kandi area of the state.
- Provide a comprehensive list of existing rural water supply schemes with period in operation, service levels being provided; tentative condition (good or average or non-supply etc).
- Provide details of source of water of these schemes and availability of water against each scheme.
- Number of personnel employed against each scheme.
- Any Water Quality issues in the water supply schemes of the region.
- Pumping hours, Supply hours and household size of each scheme.
- Provide block level map showing villages and water sources (canals/rivers/reservoirs).

(Note: The names of representative water supply schemes (as mentioned in Annexure- B) may vary during the assignment based on field requirements and any preliminary study outcomes).

7. Team Composition and Qualification requirements of experts:

The Consulting Agency should have the following minimum manpower to carry out the assignment and the actual deployment of these personnel may vary depending on the number of scheme sunder taken at a time for the study. The exact number of manpower to be deployed for the assignment shall be decided in consultation with the DWSS.

Sr.No	Description of key persons	Number of key persons required	Minimum Qualification and Experience	In put envisaged per key person
-------	----------------------------	--------------------------------	--------------------------------------	---------------------------------

Sr.No	Description of key persons	Number of key persons required	Minimum Qualification and Experience	In put envisaged per key person
1	Team leader	01	M. Tech in Civil/Environmental Engineering from recognized college/ University / Institute. Having minimum 15 yrs. of experience in supervision, designing, construction and maintenance of similar water treatment plants & Maintenance of water supply schemes. The team leader should be highly experienced water professional with experience of working more than 10 years in consultancy business of which 5 years should be in the position of team leader on similar assignments. The team leader should be part of the team working in the field throughout the assignment (working from office else is not accepted) For an extra ordinary field experience with over 30 years, educational qualifications shall be a good B. Tech degree in civil or Environmental engineering.	2 man-months over 3 month period
2	Senior Technical experts	04 (2 civil and 2 mechanical)	Graduate engineers with Civil//Mechanical engineering Experience of more than 10 years in the water sector involving design, construction and O&M is required. Preference will be given to experts with high quality consulting experience involving more than three projects.	2 man-months over 3 month period
3	Technical Experts	04 (Civil/ Environmental/ Mechanical/ Electrical/ Chemical engineering)	Graduate engineers in combination of Civil/ Environmental/ Mechanical/ Electrical/ Chemical engineering, Social and management, experts in SCADA, M&E etc based on the need. Experience should be more than 3 years (out of which at least 01 year in water sector is required.)	3 man-months (need based)

8. Reporting Requirements and Time Schedule for Deliverable:

- The consultancy support is required for a period of 3 months. The consultancy must be completed within this stipulated time.
- The consultant will be supervised by Superintending Engineer, WSS, Circle, (Hoshiarpur) and he will be reporting officer.

The schedule of submission of reports and their payment shall be as under:

Sr. No.	Deliverables	Timeline-cumulative	% of Payment
i	Submission and acceptance of inception report by review committee	20 days	10%
ii	Submission and acceptance of report on Data collection of schemes	45 days	10%
iii	Submission and acceptance of report on analysis of the data collected and propose best solutions and a workshop with findings	60 days	20%
iv	Submission of draft final report and presentation in a workshop	80 days	40%
v	Submission and approval of final report	90 days	20%

9. Eligibility and Selection Criteria for Evaluating the Proposal:

The Consultant will be selected in accordance with Selection based on Consultants' Qualification (CQS) Procurement procedure set out in the World Bank's Guidelines: Selection and Employment of Consultants by Bank borrower, Jan 2011, revised July 2014.

The eligibility criteria are as under:

- (i) **Technical:** Consultants should have experience of supervision of design, construction, operation and maintenance of at least one water supply scheme based on surface water with collection, treatment, transmission and distribution of treated water
- (ii) **Financial:** Minimum average annual financial turnover of Rs. 60 lakh in any 3 years in last 5 (five) financial years (FY 2017-18 to 2021-22), duly audited by Chartered Accountant

Full particulars of the constitution, ownership, organizational structure, and main activities of the prospective bidder should be provided, including details such as:

S. No.	Description	Enclosures(Yes/No)	AnnexureNo.
1.	Name of the firm/ organization and its registered office		
2.	Address for the correspondence		
3.	Status/Constitution of organization		
4.	Registration under Companies Act		
5.	Project Data sheets demonstrating experience in conducting Water Supply/ infrastructure projects along with completion certificates		
6.	Service Tax Registration		
7.	Permanent Account Number (PAN)		
8.	Details of major assignments undertaken of a similar nature, during the last 5(Five) years from last date of submission of EoI.		

(Note:The Technical Proposal which fulfill the eligibility criteria shall be evaluated further for selection criteria)

Selection Criteria, Sub Criteria & Point System for the Evaluation of the full technical proposal:

Selection Criteria/ Sub Criteria & Point System for the Evaluation of the final technical proposal.																	
A)	Specific experience of consultant (as firm) relevant to the Assignment Total Marks :40																
1.	Relevant experience of the Consulting firm																
	Consulting firm should have experience of supervision of design, construction, operation and maintenance of at least one water supply scheme based on surface water with collection, treatment, transmission and distribution of treated water within last 5 years from the last date of submission of EoI.	TotalMarks:10 2 Marks for each assignment (max10)															
2	Annual average financial turnover of at least 60 lakhs from consultancy projects in any 3 years in last 5 financial years (FY 2017-18 to 2021-22) duly audited by Chartered Accountant.	TotalMarks:10 ● Minimum Annual Average Turnover of Rs.60lakhs to 100lakhs=6Marks. ● Annual Average Turnover more than100 lakhs=10Marks.															
3	Description of Approach, Methodology and Work Plan with respect to scope of work & deliverables.	Total Marks:20															
	● Technical Approach and Methodology ● Work Plan ● Organization and Staffing	10marks 5marks 5marks															
B)	Key Experts' qualifications and competence for the Assignment: ● Distribution of 60 marks for the key experts for the evaluation of technical proposal would be as under: <table><tr><td>Sr. No.</td><td>Key Experts</td><td>Marks</td></tr><tr><td>a)</td><td>Team Leader - (01) 1x12</td><td>12</td></tr><tr><td>b)</td><td>Senior Technical Experts (04) 4x7</td><td>28</td></tr><tr><td>c)</td><td>Technical E4xperts (04) 4x5</td><td>20</td></tr><tr><td colspan="2">Total</td><td>60</td></tr></table> <p>The number of points to be assigned to each of the above positions shall be determined considering the following 3 sub-criteria and relevant percentage weights: General qualifications (general education and experience): 30 % Adequacy for assignment (relevant additional education, training, experience in the sector/ similar assignment undertaken) (based on evidence): 60% Relevant experience in the northern region (working level fluency in local language(s)):10% Total weight: 100% Total Marks: 100</p>		Sr. No.	Key Experts	Marks	a)	Team Leader - (01) 1x12	12	b)	Senior Technical Experts (04) 4x7	28	c)	Technical E4xperts (04) 4x5	20	Total		60
Sr. No.	Key Experts	Marks															
a)	Team Leader - (01) 1x12	12															
b)	Senior Technical Experts (04) 4x7	28															
c)	Technical E4xperts (04) 4x5	20															
Total		60															

Note:

1. Consultant's organization and experience should be submitted in the format given in the Annexure-I.
2. Description of Approach, Methodology, Work Plan and Staffing for performing the assignment should be submitted as described in Annexure-II.
3. Work Schedule and Planning for Deliverables should be submitted as per Annexure-III.
4. Team Composition, Assignment and Key Expert input and CV should be submitted as per Annexure IV.

10. Review & Acceptance Committee:

Review committee for the assignment will comprise of Chief Engineer (North Zone) DWSS as a Chairman, Superintending Engineer (Hoshiarpur Circle) DWSS, Superintending Engineer (Gurdaspur Circle) and Superintending Engineer (Chandigarh Circle) DWSS along with one Executive Engineer of the three circles.

11. Ownership:

The consultancy will be funded by Punjab Rural Water & Sanitation Sector Improvement Project (PRWSSIP funded by World Bank). The consultant will have no right or claim to the consultancy after its completion). The Consultant shall not use the outputs of consultancy without prior consent of DWSS.

FORM CONSULTANT'S ORGANIZATION AND

EXPERIENCE

Form: a brief description of the Consultant's organization and an outline of the recent experience of the Consultant that is most relevant to the assignment. In the case of a joint venture, information on similar assignments shall be provided for each partner. For each assignment, the outline should indicate the names of the Consultant's Key Experts and Sub-consultants who participated, the duration of the assignment, the contract amount (total and, if it was done in a form of a joint venture or a sub-consultancy, the amount paid to the Consultant), and the Consultant's role/involvement.

A - Consultant's Organization

1. Provide here a brief description of the background and organization of the company and – in case of a joint venture – of each member for this assignment.
2. Include organizational chart, a list of Board of Directors, and beneficial ownership

B - Consultant's Experience

1. List only previous similar assignments successfully completed in the last 5 years from last date of submission of EoI.
2. List only those assignments for which the Consultant was legally contracted by the Client as a company or was one of the joint venture partners. Assignments completed by the Consultant's individual experts working privately or through other consulting firms cannot be claimed as the relevant experience of the Consultant, or that of the Consultant's partners or sub-consultants, but can be claimed by the Experts themselves in their CVs. The Consultant should be prepared to substantiate the claimed experience by presenting copies of relevant documents and references if so requested by the Client.

Duration	Assignment name/ & brief description of main deliverables/outputs	Name of Client & Country of Assignment	Approx. Contract value (in US\$ equivalent)/ Amount paid to your firm	Role on the Assignment	Reference no.(Page) of work order and completion certificate
{e.g., Jan.2009 – Apr.2010}	{e.g., “Improvement quality of ”: designed master plan for rationalization of ;}	{e.g., Ministry of, country}	{e.g., US\$1 mill/US\$0.5 mill}	{e.g., Lead partner in a JV A&B&C}	
{e.g., Jan-May 2008}	{e.g., “Support to sub-national government ”: drafted secondary level regulations on. }	{e.g., municipality of ,country}	{e.g., US\$0.2 mil/US\$0.2 mil}	{e.g., sole Consultant}	

Note:

- I. Work Order, ToR/ Scope of work and Completion Certificate of consultancy assignments duly signed by client are to be attached with each completed assignment.**
- II. On-Going consultancy assignments/ project shall not be considered for evaluation**

FORM**DESCRIPTION OF APPROACH, METHODOLOGY, AND WORK PLAN FOR PERFORMING THE ASSIGNMENT**

Form: a description of the approach, methodology, and work plan for performing the assignment, including a detailed description of the proposed methodology and staffing for training, if the Terms of Reference specify training as a specific component of the assignment.

a) Technical Approach, Methodology, and Organization of the Consultant's team.

{Please explain your understanding of the objectives of the assignment as outlined in the Terms of Reference (TOR), the technical approach, and the methodology you would adopt for implementing the tasks to deliver the expected output(s); the degree of detail of such output; and describe the structure and composition of your team. Please do not repeat/copy the TORs in here.}

b) Work Plan and Staffing. {Please outline the plan for the implementation of the main activities/tasks of the assignment, their content and duration, phasing and interrelations, milestones (including interim approvals by the Client), and tentative delivery dates of the reports. The proposed work plan should be consistent with the technical approach and methodology, showing understanding of the TOR and ability to translate them into a feasible working plan and work schedule showing the assigned tasks for each expert. A list of the final documents (including reports) to be delivered as final output(s) should be included here. The work plan should be consistent with the Work Schedule Form.}

c) Comments (on the TOR and on counterpart staff and facilities)

{Your suggestions should be concise and to the point, and incorporated in your Proposal. Please also include comments, if any, on counterpart staff and facilities to be provided by the Client. For example, administrative support, office space, local transportation, equipment, data, background reports, etc.}

FORM

WORK SCHEDULE AND PLANNING FOR DELIVERABLES
